# SAGE Engineering & Materials Science Collection

Featuring 50 journal titles including the Proceedings of the Institution of Mechanical Engineers

The new, enhanced **SAGE Engineering & Materials Science Collection** includes access to essential research from **50 leading international journals**, including the celebrated *Proceedings of the Institution of Mechanical Engineers*.

**Proceedings of the Institution of Mechanical Engineers, Parts A-P:** A core part of any engineering collection, the Proceedings is, and always has been, the premier publication of the IMechE. Since the inception of the Institution in 1847, the Proceedings has endeavoured to satisfy the requirements of its audience by adapting and growing, ensuring that the leading internal research material is made available in a timely and effective manner. Together these titles form a core part of any engineering collection.

## The Collection includes:

- 16,751+ articles
- Up to 10 years of backfiles
- Over 90% of content ranked in the Thomson Reuters Journal Citation Reports®

<http://online.sagepub.com>

The **SAGE Engineering & Materials Science Collection** covers such subjects as High Performance Polymers, Molecular Modeling Characterization and Evaluation of Polymers, Polymeric Drugs and Drug Design, Polymeric Functionalization, Natural Polymer Modification, Enzyme Modeling by Polymers, Membranes for Biological Use, and Liposome Stabilization and Cell Modeling.

## IMechE Proceedings Archive 1847-1996

- **Direct access to over 200,000 pages of unique material**, including technical papers, obituaries, works visits, meeting reports, technical drawings, and editorial comment, all covering some of the most influential and innovative years of engineering development.
- **Highly relevant content:** 15,000 articles between 1989 and 2010 cited Archive papers.

## In addition, the Archive includes:

- The Proceedings of the Institution of Automobile Engineers (1906-1947)
- The Journal of the Institution of Locomotive Engineers (1912-1969)
- International conferences held by the Institution of Mechanical Engineers in the period 1964-1970 which were given Proceedings status
- Seminal papers and key articles by leading engineers of the last 150 years: *'On the fallacies of the rotary engine'* George Stephenson, 1848; *'Description of the compound stem turbine and turbo-electric generator'* Charles Algernon Parsons, 1888; *'Atomic projectiles and their applications'* Ernest Rutherford, 1932; *'The possibilities of nuclear energy for heat and power production'* John Douglas Cockcroft, 1947

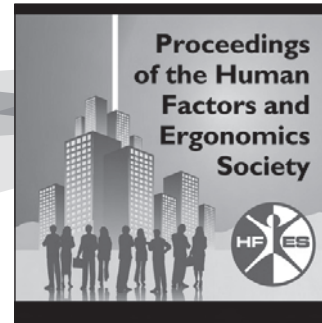

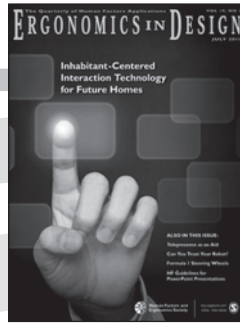

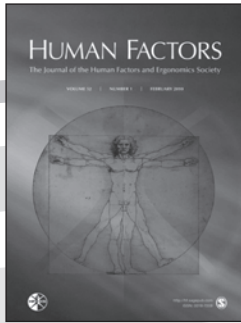

## Engineering & Materials Science Backfile

- Over 35,000 peer-reviewed articles which stretch back to volume 1, issue 1, covering a huge range of research across the discipline.
- Access via SAGE Journals Online, SAGE's award-winning online journal delivery platform, powered by HighWire Press.

## SAGE now publishes all 5 journals of the Human Factors and Ergonomics Society!

### Human Factors

The Journal of the Human Factors and Ergonomics Society  
Editor: **William S Marras**, *The Ohio State University*

**Human Factors** highlights fundamental human capabilities, limitations, and tendencies, as well as the basics of human performance, with the goal of promoting improvements in the human-system interface that lead to safer and more effective use.

**2010 Journal Citation Reports® (Thomson Reuters, 2011)**  
**Ranking:** 5/14 in Ergonomics; 30/67 in Psychology, Applied (SSCI)  
49/73 in Psychology (SCI); 40/48 in Behavioral Sciences  
**Impact Factor:** 1.373

### Reviews of Human Factors and Ergonomics

Each review in each volume of **Reviews of Human Factors and Ergonomics (REV)** covers a specific topic of timeliness and importance for HF/E researchers and practitioners. Chapters focus on research findings applicable to enhancing human performance through the design of systems, devices, and processes. They identify the ways in which research informs theory and also how the results are applicable to design methodologies and decisions.

### Ergonomics in Design

The Quarterly of Human Factors Applications

Editor: **Carol Stuart-Buttle**, *Stuart-Buttle Ergonomics*

**Ergonomics in Design: The Quarterly of Human Factors Applications** is intended to serve the needs of practicing human factors/ergonomics professionals who are concerned with the usability of products, systems, tools, and environments. It provides up-to-date demonstrations of the importance of HF/E principles in design and implementation. Articles, case studies, anecdotes, debates, and interviews focus on the way in which HF/E research and methods are applied in the design, development, prototyping, test and evaluation, training, and manufacturing processes of a product or system.

### Journal of Cognitive Engineering and Decision Making

Editor: **Mica Endlsey**, *SA Technologies, Inc.*

The focus of the **Journal of Cognitive Engineering and Decision Making (JCEDM)** is on research that seeks to understand how people engage in cognitive work in real-world settings and the development of systems that support that work. The journal features research on human cognition and the application of this knowledge to the design and development of system interfaces, automation, aids and other support systems, training programs, personnel selection devices, and coordination environments for people who work in teams or groups.

## Building Services Engineering Research and Technology

An International Journal

Chairman: **Chris Underwood**, *University of Northumbria at Newcastle, UK*

This is one of the foremost, international peer reviewed journals that publishes the highest quality original research relevant to today's Built Environment. Published in conjunction with CIBSE, this impressive journal provides you with an invaluable guide to recent developments in the field.

**2010 Journal Citation Reports® (Thomson Reuters, 2011)**

**Ranking:** 26/53 in Construction & Building Technology  
**Impact Factor:** 0.627

## Concurrent Engineering

Research and Applications

Editor-in-Chief: **Biren Prasad**, *Institute of Concurrent Engineering, Tustin, USA*

**Concurrent Engineering** publishes papers on state-of-the-art research and development, product development, and novel applications and tools in areas of concurrent engineering (CE).

**2010 Journal Citation Reports® (Thomson Reuters, 2011)**

**Ranking:** 84/97 in Computer Science, Interdisciplinary Applications  
 30/37 in Engineering, Manufacturing

## Journal of Building Physics

Formerly known as Journal of Thermal Envelope and Building Science  
 Editor: **Mark Bomberg**, *Syracuse University, Syracuse, New York, USA*

The **Journal of Building Physics** is an international, peer-reviewed journal that publishes a high quality research and state of the art "integrated" papers to promote scientifically thorough advancement of all the areas of non-structural performance of a building and particularly in heat, air, moisture transfer.

**2010 Journal Citation Reports® (Thomson Reuters, 2011)**

**Ranking:** 29/53 in Construction & Building Technology  
**Impact Factor:** 0.571

## The International Journal of High Performance Computing Applications

Editors-in-Chief: **Jack Dongarra**, *University of Tennessee, Knoxville, USA*  
and **Bronis R De Supinski**, *Lawrence Livermore National Laboratory, USA*

The **International Journal of High Performance Computing Applications** provides a lively forum for the communications of original peer reviewed research papers and timely review articles on the use of supercomputers to solve complex modeling problems in a spectrum of disciplines.

**2010 Journal Citation Reports® (Thomson Reuters, 2011)**

**Ranking:** 39/97 in Computer Science, Theory & Methods

## Journal of Multi-body Dynamics

Proceedings of the Institution of Mechanical Engineers, Part K  
 Editor: **Homer Rahnejat**, *Loughborough University, UK*

The **Journal of Multi-body Dynamics** is a multi-disciplinary forum covering all aspects of mechanical design and dynamic analysis of multi-body systems. It is essential reading for academic and industrial research and development departments active in the mechanical design, monitoring and dynamic analysis of multi-body systems.

**2010 Journal Citation Reports® (Thomson Reuters, 2011)**

## Journal of Materials: Design and Applications

Proceedings of the Institution of Mechanical Engineers, Part L  
 Editor: **William M Banks**, *University of Strathclyde, UK*

The **Journal of Materials: Design and Applications** is a forum for communication of fundamental research and application areas in the field of materials. The whole range of materials engineering and technology is addressed, including metallic materials, polymers, composites and ceramics. In addition, metal matrix composites and ceramic matrix composites are part of the portfolio.

## Journal of Engineering for the Maritime Environment

Proceedings of the Institution of Mechanical Engineers, Part M  
Editor: **R A Shenoj**, *University of Southampton, UK*

The **Journal of Engineering for the Maritime Environment** is concerned with the design, production and operation of engineering artefacts for the maritime environment. The journal straddles the traditional boundaries of naval architecture, marine engineering, offshore/ocean engineering, coastal engineering and port engineering.

**2010 Journal Citation Reports® (Thomson Reuters, 2011)**

**Ranking:** 6/11 in Engineering, Marine

**Impact Factor:** 0.259

## IMechE Proceedings Archive 1847–1996

The **IMechE Proceedings Archive: 1847–1996** gives you direct access to over 200,000 pages of unique material, including technical papers, obituaries, works visits, meeting reports, technical drawings, and editorial comment, all covering some of the most influential and innovative years of engineering development.

The **Archive** includes:

- The Proceedings of the Institution of Automobile Engineers (1906–1947)
- The Journal of the Institution of Locomotive Engineers (1912–1969)
- International conferences held by the Institution of Mechanical Engineers in the period 1964–1970 which were given Proceedings status

This package is a valuable resource for engineers, scientists, historians, social commentators, biographers, genealogists, or simply the inquisitive: **Between 1989 and 2010, over 15,000 articles have cited the IMechE Proceedings Archive papers!**

The **IMechE Proceedings Archive 1847–1996** is available digitally, for purchase as well as on a subscription basis – for further information contact [journalsubs@sagepub.in](mailto:journalsubs@sagepub.in)

## Clothing and Textiles Research Journal

Editor: **Sharron J Lennon**

**Clothing and Textiles Research Journal** strives to strengthen the research base in clothing and textiles, demonstrate the interdisciplinary nature of the field, and inspire further research.

## SAGE Journals Going Mobile with HighWire

The entire collection of SAGE's online journal sites will soon be available in a mobile-optimized format, taking advantage of the HighWire Mobile Web interface. Readers visiting a SAGE journal site on their iPhone, Android or other smartphone device will automatically be redirected to the mobile version.

*"We've been observing an increasing amount of mobile usage of our journals online. At the same time, our librarian customers are looking to improve web browsing for their patrons who access their online content using a smartphone. HighWire's mobile web design is perfectly suited for those who read on the go. We're excited to better serve and engage those readers across all the SAGE journals in the coming months."*

**Jayne Marks, Vice President and Editorial Director,  
Library Information Group at SAGE**

*"HighWire designed the mobile-optimized sites to serve the 'looking up and keeping up' habits of mobile users. Our goal is to help readers find the information they need quickly, offering them a streamlined set of features and tools. When you only have a reader's attention for a short period of time, in a small space, you want every minute to count."*

**John Sack, HighWire's Founding Director**

*"HighWire, in collaboration with SAGE, identified an opportunity to provide better mobile tools for end users. We devised a series of innovative, mobile solutions to meet the needs of the scholarly community and are delighted that SAGE is taking advantage of this product offering."*

**Tom Rump, Managing Director of HighWire**

Each of SAGE's 600+ mobile journal sites will soon deliver an optimized experience designed for the smaller screen of a smartphone. The sites will feature the essential aspects of the online site, including the full-text content of the current issue, archives, and OnlineFirst articles, and will offer a simplified search, authentication, and sharing tools, all the while maintaining a sense of continuity with the desktop version of the sites.

# SAGE research methods online

The essential tool for researchers from the world's leading research methods publisher

## What is it?

**SAGE Research Methods Online (SRMO)** is an award-winning research methods tool created to help researchers, faculty and students with their research projects.

With SRMO, researchers can explore their chosen method across the **depth and breadth** of content, expanding or refining their search as needed; **read online, print, or email full-text** research methods content; utilize suggested **related methods and links** to related authors from SRMO's robust library and unique features; and even **share their own collections** of content through SRMO with other users.

Since SRMO focuses on methodology rather than disciplines, it can be used by researchers from the social sciences, health sciences and more.

## What's in it?

- Over 100,000 pages of book, journal and reference content from leading SAGE authors, easily accessible online.
- Search and discovery tools to support browsing and discovery of material, guiding you to the information you need.
- The 'methods map' visualizes relationships between methods terms, concepts, people and literature, supported by a newly developed taxonomy for social science research methods.
- Create collections that include selected book chapters and journal articles to share through the site with your students, co-authors, and colleagues.

## Regularly updated content and features

New books and articles, as well as new features, are added each year to keep you current with the latest developments.

### Academic Researchers

Find content related to your area of research to help you refine your research methods. Try searching your preferred method in the *Methods Map*.

### Students

SRMO can help you design your research project and collect and analyze your data. Use Search or the Methods Map to navigate our research methods material.

### Teachers and Lecturers

Create an *SRMO list* of the content you recommend for your research methods course and share it quickly and easily with your students online.

### Library Administrators

Support methods queries from your patrons, and use our admin tool to upload your library logo and retrieve MARC Records and COUNTER reports.

## Librarian friendly features include:

- COUNTER Compliant Usage Statistics
- MARC Records
- OpenURL Compliance
- DOIs for book chapters registered with CrossRef

*“ I want it now! It's such a dream come true for research students...right now I'm spending hours and hours in what I could do in a few clicks with the Methods Map. ”*
